“ She has touched the lives of so many during her lifetime. Free are the stories,advise and lectures. If she gave you any of these please share with us. I don't think she really ever knew the impact she had on all of us. I believe she was the coolest mother of all. She never judged us for anything that we did wrong,we got the lecture for why we shouldn't , and trust me we never did it again, but all of us are better people for having known such a wonderful person. We all are more spiritual because of her and more aware of what the universe has to offer. She was a beautiful person inside and out and I am grateful to call her mom and friend we love you
