“ I remember randy as one of the first people in the area to befriend me. Good old days in the garage building dog houses and just tinkering around. I still can't believe he is gone in a weird way I still feel his presence everyday, he might be gone in the flesh but he is most deff still here in his spirit helping me build things and trying to better my life and all of the life's of the people he touched, And helped throughout his life. Randy you are and will be missed life is not the same for us without you brother love you bro and watch over us!

“ Always made me laugh. You cracked me up everytime. I loved how you had such a big heart and would do everything you could to be there for others. May you rest with your mama and daddy now.
